The Problem

Indian K-12 Education is Broken

Problem	Impact
Expensive Tutoring	₹20,000-50,000/month for coaching classes
One-Size-Fits-All	Same pace for all students, no personalization
No Offline Access	Rural/semi-urban students lack reliable internet
Fragmented Tools	Videos on YouTube, quizzes elsewhere, no integration
No Progress Tracking	Parents have no visibility into learning

Market Size

Segment	Size
Indian EdTech Market (2025)	$10 Billion
K-12 Segment	$4 Billion
Our Target (Grades 4-12)	$2.5 Billion
Serviceable Market (Year 3)	₹500 Crores

The Solution: StreamShaala

AI-Powered, Offline-First Learning Platform for Indian Students

What We Built

Feature	Description
Adaptive Learning	AI identifies gaps, creates personalized learning paths
